Now that you are in charge, are you shocked to learn that all the rules have changed? Command and Control has been replaced by Contradiction and Chaos. Employees are not told what to do anymore. Now, you influence their choices and assist them in reaching goals. You do not direct; you win the team over to your point of view. You do not dictate; you inspire!

The business world has changed! Management was about pushing people to succeed. Leadership is about pulling people along to succeed. You require a new skill set to make it to the top in a “pull” environment. This course teaches how to stop managing and start leading, making you a vital part of your organization's future.

The days of assuming that a good manager was also a good leader are gone. Clear distinctions are being made between the two. Learn the differences between managing and leading and then begin gravitating toward a more direct leadership style and away from a management-based style. Stop pushing and start pulling.

Hear that sound? It is the sound of a business paradigm shifting yet again. Register yourself for success. *Leadership Training for Managers* will transform you from yesterday's manager to tomorrow's leader.
