Roundtable for Dale Carnegie Graduates - Via WebEx

En personne

The topic of discussion: Communication and Goal Setting

Ce que vous apprendrez

Discover the Five Drivers of Success Set Goals Re-Focus on Processes and Principles of Dale Carnegie

Pourquoi vous voulez l'apprendre

It has been said that only 3% of people write down their goals that they want to attain in the future. Studies have shown that when people write down their goals and take it to the next step of verbalizing it, they are 42% more likely to reach their goals.

Comment cela va vous aider

As a graduate of a Dale Carnegie Program, you have made that step of writing down your goals. Have you been holding yourself accountable? In this session we will revisit the goals we made and discuss challenges we are currently faced with. We will be able to hear from other graduates and brainstorm on processes or principles that we can re-focus on.
